

ADVANCED PLASTIC &
POLYMER INNOVATORS

PARTNERSHIPS THAT **SHAPE** THE MARKET

“Matching the perfect material to the application allows us to achieve exactly what we wanted, verses having to design around the limitations of materials like aluminum or alloys.” – ERIN KEANEY *Vice President of Nonspec, Plastics Engineer, IAPD Winner*

NONSPEC

FEATURING QUADRANT® NYLON 101 PA66 & PC 1000

QUADRANT EPP, the global leading manufacturer of plastic materials and stock shapes for the Life Science and Medical industries, recently partnered with **Nonspec**, a visionary prosthetics developer, yielding revolutionary arm and hand devices that are durable, expandable to accommodate patient growth, and deliver lower manufacturing costs. Quadrant's LSG family of materials are uniquely formulated for applications in the pharmaceutical, biotechnology, orthopedics, and dental fields.
