

JOB OFFER

Site:	Quadrant EPP Vreden, Germany
Position:	Validation Engineer – Business Unit: MediTECH

YOUR RESPONSIBILITIES

To be the technical expert for MediTECH validations. This involves initiating, leading, coordinating and performing validations. Communicate with customers on expectations and create custom validations to document processes. Create an effective environment for validations that utilize the resources available. Your tasks in detail:

- Initiate, lead, design, coordinate and perform validations for MediTECH. This involves developing the validation protocols, designing the qualification trials, performing the trials, analyzing the data and completing the validation summary reports.
- Serve as an interface to the customer for validation and qualification efforts. Assist in the development of combined validation efforts and also describe and explain validation documentation to customers.
- Special project work. This could include new product and process launch, new equipment or software designation and installation, and training of personnel.
- Continually improve knowledge of validation methods and techniques; train employees to improve the overall quality of validation knowledge and performance.
- Provide support to general MediTECH quality. Facilitate the validation portion of audits, serve as a back-up on general quality activities.

YOUR QUALIFICATION

- Bachelor's Degree, focus on Engineering.
- Experience with validation methodology (IQ, OQ, PQ, Method Validation, etc.). Preferable experience with ISO 13485 Quality Management Systems, ISO 14971 Risk Management.
- Good understanding and knowledge of computer hardware and software.
- Professional skills in the use of office software such as MS Word and MS Excel.
- Preferable experience with statistical methods and analysis of data.
- Professional communication skills.
- Business fluent in English and German.

OUR INCENTIVE

Quadrant offers you a discerning and long-term challenge in an international organization and supports your professional development as well as the realization of your career objectives in a family-friendly environment. Furthermore, you benefit from the advantages offered by an international corporate group with attractive payment, a company pension scheme and health management.

OUR VALUE

Health, Safety and Sustainability are core values for us at Quadrant and at the center of how we work - we call it "KAITEKI, the sustainable well-being of people, society and our planet Earth". You understand and embrace these principles in everything you do.
